

ALGEBRA 2 SYLLABUS

Mrs. Obrey

cindy.obrey@ghslakers.org

Course Description:

Algebra 2 begins with a review of concepts learned in Algebra I and continues to build on those skills as well as introduce new topics. In Algebra 2, I will focus on the use of technology and data analysis to develop students' thinking, problem-solving, and communication skills. Properties, applications, algebra, and parametric representation of functions, linear, quadratic, radical, exponential, logarithmic, polynomial, and rational functions will also be studied.

Course Outline:

We will cover chapters 1 through 12. There will be a midterm and final exams. The final will be comprehensive.

Textbook: Glencoe McGraw-Hill 2010

Other Resources: Khan Academy and Hippocampus

Grading Procedure:

These chapters will cover each of the standards.

Each chapter will be graded by homework, quizzes, and assessments.

Missed assignments and assessments must be done in a timely matter or a zero will be given.

All students will have an opportunity to make up any work that does not meet the standard.

Make-up:

1. One make-up assessment for each chapter assessment.
2. Make-up for any assignments are for students who score a 74 or lower.
3. Students must review the assignment with me before taking the make-up assignment.
4. The make-up assignments must be completed before next chapter assessment.
5. The make-up assignments may bring the assignments score to a maximum of 75.
6. A make-up assessment will only be allowed after all homework is complete and acceptable for the chapter being retaken.

Homework:

Students must attend class and be willing to participate during discussions.

Homework will be graded on a scale of 0-100. If a check is given, then it is considered a 100 on that assignment.

Any homework assignment not turned in will receive a score of "0".

Work must be shown on your assignment to get credit.
