January 3, 2008

I am pleased and relieved to inform you that the school's Voicemail software is fully active and to our knowledge functioning properly.

Each afternoon when the school office closes at 3:30, Mrs. Hanson turns on the voicemail system. If you call any of the school numbers (695-2666, 695-2745, 695-2405), the system will answer and you will hear a recorded message. When you hear that message you can type in the extension of the person you are trying to reach. There is a way to search for the extension while on the phone, but to make things easier you will find a complete listing of our staff and their respective voicemail extensions listed below.
